

- For marking components made of steel, aluminum, or plastic
- Extremely compact design
- With end position monitoring
- Pneumatic pulse triggering, making it significantly less susceptible to wear than mechanical designs
- HSS punch tip
- Any installation position

Variants	Marking Material	Dimensions (WxHxL)
Type 1.110	Aluminium, Plastic	32 x 32 x 140 mm
Type 1.116	Steel	32 x 32 x 160 mm
